*July 2019*

## Believe • Belong • Become

This summer marks almost a year since our six schools came together to form the Alumnis Multi Academy Trust. We are a family of schools with shared values, a commitment to work together and a willingness to place our children's needs at the heart of all we do. We know that through our shared vision and determination to succeed, we will continue to learn and grow together.

Our Trust consists of 6 individual schools, each with their own unique strengths and character, each at the heart of its community. In the Autumn Term, we hope to bring a seventh school into the fold.

This academic year has been just the start for the Alumnis Multi Academy Trust. Next academic year we look forward to building upon the opportunities we can offer our children, their families, our staff and our communities.

The aim of this first newsletter is to give you an insight to some of the amazing activities that have taken place across the Trust since our launch. We hope that you enjoy perusing it.

We would like to take this opportunity to acknowledge the hard work, dedication and collaboration from the staff in all schools, to ensure such vibrant and exciting learning opportunities are possible, and to say a sincere thank you to all of the of the volunteers who freely give up their time to support with activities, opportunities and areas of school development.

Finally on behalf of all our schools we would like to wish you all an enjoyable and sun-filled summer holiday and we look forward to welcoming you back on the 4th September, for lots more fun filled learning!

# Our Vision...

## We believe that...

...we should all love learning / we should inspire a passion for learning  
...the best learning is achieved through the provision of broad and stimulating experiences  
...only through taking risks and making mistakes can we reach our full potential  
...we should always reach beyond our own aspirations and we will encourage others to do the same  
...we should always expect high standards

## In belonging we....

...are at all the heart of our community – local and global  
...are a community that values the individual first  
...work hard as a team to improve the outcomes for all  
...recognise that we are all leaders and seek to develop the capacity to lead in everyone  
...seek to understand, respect and celebrate the differences of our world (while educating ourselves in and seeking an explanation for ideals which we cannot reconcile in our community)

## We will become....

...independent and autonomous lifelong learners  
...valued members of our communities who have the highest aspirations for ourselves and the highest regard for others  
...successful, educated, confident and caring individuals
