1. Introduction

This Policy sets out the Alumnis Multi Academy Trust's commitment to handling personal data in accordance with the UK data protection law. This policy applies to all personal data, regardless of whether it is in paper or electronic format.

This policy applies to the processing of personal data held by the Trust. This information is collected from staff, pupils, parents, governors, visitors, and others.

The Trust is the data controller for the personal data it processes while it remains responsible for the relevant academy or processing activity. Following the transfer of an academy, the incoming academy trust will be responsible for its own processing activities in accordance with applicable data protection legislation and the transfer arrangements. Alumnis Multi Academy Trust is undertaking a planned process whereby its academies will transfer to incoming academy trusts and Alumnis will subsequently cease to operate.

During the period in which Alumnis remains responsible for an academy, the Trust will continue to comply with applicable data protection legislation and this policy.

As each academy transfers, responsibility for the ongoing processing and management of personal data relating to that academy will be managed in accordance with the transfer arrangements and applicable data protection legislation. The incoming academy trust will be responsible for its processing activities following transfer.

Alumnis will work with incoming academy trusts and relevant professional advisers to ensure that personal data is transferred, retained or otherwise dealt with lawfully and securely. This includes appropriate arrangements for pupil, staff, governance and other records.

Personal data will only be transferred where there is a lawful basis for doing so and appropriate security measures will be applied. Records which are required to be retained by Alumnis following transfer will continue to be managed in accordance with applicable retention requirements and the Trust's closure arrangements.

2. Legislation and guidance

This policy meets the requirements of the:

- UK General Data Protection Regulation (UK GDPR) – the EU GDPR was incorporated into UK legislation, with some amendments, by The Data Protection, Privacy and Electronic Communications (Amendments etc) (EU Exit) Regulations 2020
- Data Protection Act 2018 (DPA 2018)

It is based on guidance published by the Information Commissioner's Office (ICO) on the GDPR.

It also reflects the ICO's code of practice for the use of surveillance cameras and personal information.

In addition, this policy complies with our funding agreement and articles of association.

3. Definitions

TERM	DEFINITION
Personal data	<p>Any information relating to an identified, or identifiable, living individual.</p> <p>This may include the individual's:</p> <ul style="list-style-type: none">• Name (including initials)• Identification number• Location data• Online identifier, such as a username <p>It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.</p>
Special categories of personal data	<p>Personal data which is more sensitive and so needs more protection, including information about an individual's:</p> <ul style="list-style-type: none">• Racial or ethnic origin• Political opinions• Religious or philosophical beliefs• Trade union membership• Genetics• Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes• Health – physical or mental• Sex life or sexual orientation
Processing	<p>Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying.</p> <p>Processing can be automated or manual.</p>
Data subject	<p>The identified or identifiable individual whose personal data is held or processed.</p>
Data controller	<p>A person or organisation that determines the purposes and means of the processing of personal data.</p>
Data processor	<p>A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.</p>
Personal data breach	<p>A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.</p>

4. Roles and responsibilities

This policy applies to **all staff** employed by our Trust, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

4.1 Board of Directors

The Board of Directors has overall responsibility for ensuring that, during the period in which Alumnis Multi Academy Trust remains responsible for its academies, appropriate arrangements are in place to comply with this Policy and applicable data protection legislation.

During the academy transfer and Trust closure process, the Board will oversee appropriate arrangements for the lawful and secure transfer, retention and management of personal data.

4.2 Head Teacher

The Head Teacher has day-to-day responsibility for ensuring this policy is adopted and adhered to by staff and other individuals processing personal data on behalf of their Trust.

4.3 Data Protection Officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on Trust data protection issues.

The DPO is supported in their role by a Trust employee. This person is known as the Data Protection Liaison Officer (DPLO) who is the first point of contact for individuals whose data the Trust processes, and for the ICO.

The DPO for the Alumnis Multi Academy Trust is Jenny Goodall who can be contacted via email at Trustdataprotection@devon.gov.uk

All enquiries, complaints, requests and suspected breaches of security, should be referred to the DPLO in the first instance, who will then notify the DPO. The DPLO can be contacted at dpo@alumnismat.org

The DPO and DPLO contact details stated in this policy apply while Alumnis Multi Academy Trust remains responsible for the relevant processing activities.

During the academy transfer and Trust closure process, the Trust will communicate any changes to data protection contacts and arrangements to staff, pupils, parents/carers and other relevant individuals as appropriate.

Following transfer of an academy, enquiries relating to the incoming trust's processing of personal data should be directed to the incoming academy trust using its published data protection contact details.

Where an enquiry relates to personal data or processing retained by Alumnis following transfer, it should be directed to the Alumnis data protection contact in accordance with the Trust's closure arrangements.

4.4 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the Trust of any changes to their personal data, such as a change of address
- Contacting the DPLO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
- If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the UK
- If there has been a data breach
- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

5. Data protection principles

The UK GDPR is based on data protection principles that our Trust must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

The Trust must also ensure that it is accountable and can show recorded evidence of compliance with the Act.

This policy sets out how the Trust aims to comply with these principles.

6. Collecting personal data

Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the Trust can **fulfil a contract** with the individual, or the individual has asked the Trust to take specific steps before entering into a contract
- The data needs to be processed so that the Trust can **comply with a legal obligation**.
- The data needs to be processed to ensure the **vital interests** of the individual or another person i.e. to protect someone's life
- The data needs to be processed so that the Trust, as a public authority, can **perform a task in the public interest or exercise its official authority**
- The data needs to be processed for the **legitimate interests** of the Trust (where the processing is not for any tasks the Trust performs as a public authority) or a third party, provided the individual's rights and freedoms are not overridden
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing under data protection law:

- The individual (or their parent/carer when appropriate in the case of a pupil) has given **explicit consent**
- The data needs to be processed to perform or exercise obligations or rights in relation to **employment, social security or social protection law**
- The data needs to be processed to ensure the **vital interests** of the individual or another person, where the individual is physically or legally incapable of giving consent
- The data has already been made **public** by the individual
- The data needs to be processed for the establishment, exercise or defence of **legal claims**
- The data needs to be processed for reasons of **substantial public interest** as defined in legislation
- The data needs to be processed for **health or social care purposes**, and the processing is done by, or under the direction of, a health or social work professional or by any other person obliged to confidentiality under law
- The data needs to be processed for **public health reasons**, and the processing is done by, or under the direction of, a health professional or by any other person obliged to confidentiality under law

- The data needs to be processed for **archiving purposes**, scientific or historical research purposes, or statistical purposes, and the processing is in the public interest

The above conditions for processing also apply to criminal offence data.

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law in the form of a Privacy Notice. Our suite of Privacy Notices are publicly available on our website.

We will always consider the fairness of our data processing. We will ensure we do not handle personal data in ways that individuals would not reasonably expect, or which would not be considered fair.

6.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where appropriate.

Staff must only access and process personal data where it is necessary for them to fulfil their job roles.

We will keep data accurate and, where necessary, up-to-date. Inaccurate data will be rectified or erased when appropriate.

In addition, when staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the Trust's record retention schedule (see Appendix 2).

7. Sharing personal data

We will only share personal data where we have a legitimate basis for doing so, and as outlined within our privacy notices. Examples of where personal data may be shared with third parties are detailed below:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk;
- We need to liaise with other agencies
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with UK data protection law;
 - Establish a contract with the supplier or contractor to ensure the fair and lawful processing of any personal data we share;
 - Only share data that the supplier or contractor needs to carry out their service.

We will also share personal data with law enforcement and government bodies where we are legally required to do so.

We may also share personal data with emergency services and local authorities to help them respond to an emergency that affects any of our pupils or staff.

Where we transfer personal data internationally, we will do so following data protection law.

7.1 Transfer of personal data during academy transfer

Where an academy transfers from Alumnis Multi Academy Trust to an incoming academy trust, personal data may need to be transferred to enable the receiving trust to continue to meet its legal, safeguarding, educational, employment and administrative responsibilities.

The Trust will work with the incoming academy trust to identify the records and information that need to be transferred and will ensure that transfers are undertaken lawfully, securely and proportionately.

This may include, where applicable, pupil records, safeguarding information, SEND information, attendance information, educational records, staff information, governance information and other records necessary to support continuity of services and legal responsibilities.

Personal data will be transferred using appropriate security measures and in accordance with applicable data protection legislation, statutory requirements and agreed transfer arrangements.

The Trust will maintain appropriate records of data transfers and decisions concerning the retention, transfer or disposal of personal data.

7.2 Records retained following academy transfer or Trust closure

Not all personal data held by Alumnis Multi Academy Trust will necessarily transfer to an incoming academy trust.

Where Alumnis is required to retain personal data following the transfer of an academy or closure of the Trust, such information will continue to be processed securely and only for lawful purposes.

Records will be retained for the period required by applicable legislation, regulatory requirements, contractual obligations and the Trust's retention arrangements.

Where records are no longer required and there is no legal or regulatory requirement to retain them, they will be securely disposed of in accordance with this Policy and the applicable retention schedule.

8. Subject access requests and other rights of individuals

8.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the Trust holds about them. This includes:

- Confirmation that their personal data is being processed;
- Access to a copy of the data;

- The purposes of the data processing;
- The categories of personal data concerned;
- Who the data has been, or will be, shared with;
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period;
- Where relevant, the existence of the right to request rectification, erasure or restriction, or to object to such processing;
- The right to lodge a complaint with the ICO or another supervisory authority;
- The source of the data, if not the individual;
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual;
- The safeguards provided if the data is being transferred internationally.

Subject access requests can be submitted in any form, but we may be able to respond to requests more quickly if they are made in writing and include:

- Name of individual;
- Correspondence address;
- Contact number and email address;
- Details of the information requested
- Timescale for the information requested.

If staff receive a subject access request in any form they must immediately forward it to the DPLO via dpo@alumnismat.org

8.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Where children are not considered to be mature enough to understand their rights and the implications of a subject access request, access may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

8.3 Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification;
- May contact the individual via phone to confirm the request was made ;
- Will respond without delay and within 1 month of receipt of the request (or receipt of the additional information needed to confirm identity, where relevant);
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary.

We may not disclose information for a variety of reasons, such as if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual;
- Would reveal that the child is being or has been abused, or is at risk of abuse, where the disclosure of that information would not be in the child's best interests;
- Would include another person's personal data that we can't reasonably anonymise, and we don't have the other person's consent and it would be unreasonable to proceed without it;
- Is part of certain sensitive documents, such as those related to crime, immigration, legal proceedings or legal professional privilege, management forecasts, negotiations, confidential references, or exam scripts.

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee to cover administrative costs. We will take into account whether the request is repetitive in nature when making this decision.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

8.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Ask us to rectify, erase or restrict processing of their personal data (in certain circumstances);
- Prevent use of their personal data for direct marketing;
- Object to processing which has been justified on the basis of public interest, official authority or legitimate interests;
- Challenge decisions based solely on automated decision making or profiling (i.e. making decisions or evaluating certain things about an individual based on their personal data with no human involvement);
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances).

Individuals should submit any request to exercise these rights to the DPLO via dpo@alumnismat.org. If staff receive such a request, they must immediately forward it to the DPLO.

Following transfer of an academy, requests relating to personal data processed by the incoming academy trust should be directed to the incoming trust using its published data protection contact details. Requests relating to personal data retained or processed by Alumnis should continue to be directed to the Alumnis data protection contact while the Trust remains responsible for that processing.

9. CCTV

We use CCTV in various locations around our sites to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to the school administration team

Where an academy transfers to an incoming academy trust, responsibility for CCTV processing will be managed in accordance with the transfer arrangements and the incoming trust's data protection arrangements.

10. Photographs and videos

As part of our Trust activities, we may take photographs and record images of individuals within our Trust.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil.

Any photographs and videos taken by parents/carers at Trust events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers have agreed to this.

Where the Trust takes photographs and videos, uses may include:

- Within Trust on notice boards and in Trust magazines, brochures, newsletters, etc;
- Outside of Trust by external agencies such as the Trust photographer, newspapers, campaigns;
- Online on our Trust website or social media pages.

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

Where an academy transfers to an incoming academy trust, responsibility for photographs and videos held or subsequently processed by the academy will be managed in accordance with the transfer arrangements and applicable data protection requirements.

11. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge;
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6);
- Completing Data Protection Impact Assessments (DPIAs) where the Trust's processing of personal data presents a high risk to the rights and freedoms of

individuals, and when introducing new technologies (the DPO will advise on this process);

- Integrating data protection into internal documents including this policy, any related policies and privacy notices;
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance;
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant;
- Appropriate safeguards being put in place if we transfer any personal data outside of the European Economic Area (EEA), where different data protection laws may apply;
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our Trust DPO and DPLO;
 - For all personal data that we hold, maintaining an internal record of the type of data, type of data subject, how and why we are using the data, any third-party recipients, any transfers outside of the EEA and the safeguards for those including retention periods and how we are keeping the data secure.

12. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data, are kept under lock and key when not in use;
- Papers containing confidential personal data must not be left on office and classroom desks, on staff room tables, or left anywhere else where there is general access;
- Where personal information needs to be taken off site, staff must sign it in and out from the Trust office;
- Passwords that are at least 8 characters long containing letters and numbers are used to access Trust computers, laptops and other electronic devices. Passwords will be automatically reset every 60 days. Staff and pupils are reminded that they should not reuse passwords from other sites ;
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices;
- Staff, pupils, Directors or Local Trusts Committee Members who store personal information on their personal devices are expected to follow the same security procedures as for Trust-owned equipment (*see our online safety policy and acceptable user agreements*);

- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 7).

During academy transfer and Trust closure, additional controls will be applied where necessary to protect personal data being transferred between Alumnis and incoming academy trusts. Personal data will only be transferred using secure and appropriate methods and access will be limited to those who require the information for legitimate purposes.

13. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the Trust's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

Document retention guidance can be found [here](#).

The closure of the Trust or transfer of an academy does not, in itself, mean that personal data can be deleted. Records will be transferred or retained where required by law, statutory guidance, regulatory requirements, contractual obligations or the Trust's retention arrangements. Any personal data that is no longer required and is not subject to a retention requirement will be securely disposed of.

14. Personal data breaches

The Trust will make all reasonable endeavours to ensure that personal data is processed securely in line with the sixth data protection principle.

In the event of a suspected data breach, we will follow the procedure set out in Appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours after becoming aware of it. Such breaches in a Trust context may include, but are not limited to:

- An email containing personal data being sent to an unintended recipient.
- A non-anonymised dataset being published on the Trust website which shows the exam results of pupils eligible for the pupil premium;
- Safeguarding information being made available to an unauthorised person;
- The theft of a Trust laptop containing non-encrypted personal data about pupils.

During the academy transfer and Trust closure process, any suspected breach involving personal data being transferred to or received from an incoming academy trust must also be escalated in accordance with the agreed transfer arrangements. The DPO will liaise with the incoming academy trust where appropriate to determine responsibilities, contain the breach and meet any applicable reporting requirements.

15. Training

All Staff, Directors and Local Trusts Committees are provided with data protection training as part of their induction process and thereafter on at least a biannual basis in line with data protection legislation requirements.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the Trust's processes make it necessary.

During the period in which Alumnis Multi Academy Trust remains responsible for its academies, all staff, Directors and Local Trust Committee members will be provided with data protection training as appropriate to their roles and responsibilities.

During the academy transfer and Trust closure process, relevant staff will receive appropriate guidance on the secure handling, transfer, retention and disposal of personal data.

16. Monitoring arrangements

The DPLO and DPO are jointly responsible for monitoring and reviewing this policy while Alumnis Multi Academy Trust remains responsible for its academies and processing activities.

The policy will be reviewed as necessary during the academy transfer and Trust closure process to ensure that it remains accurate and reflects current data protection responsibilities and arrangements.

Following the transfer of all academies and closure of Alumnis Multi Academy Trust, this policy will cease to apply to processing undertaken by the incoming academy trusts. Any personal data retained by Alumnis will continue to be managed in accordance with applicable data protection requirements and the Trust's closure arrangements.

17. Links with other policies

This data protection policy is linked to our:

- Freedom of Information publication scheme
- Child Protection & Safeguarding Policy
- Online Safety Policy
- Privacy Notices
- Use of ICT Policy

Appendix 1: Personal data breach procedure

This procedure is based on guidance on personal data breaches produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPLO.
- The DPLO will investigate the report, and determine whether a breach has occurred. To decide, the DPLO and DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost;
 - Stolen;
 - Destroyed;
 - Altered;
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people.
- The DPO will alert the Headteacher, Accounting Officer and both the Chair of Directors and the Chair of the Local Trusts Committee.
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary (actions relevant to specific data types are set out at the end of this procedure).
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen.
- The DPO will risk assess each breach to determine whether it reaches the threshold for reporting to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned

If it's considered likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the Trust's Google Drive.

- Where the ICO must be notified, the DPO will do this via the 'report a breach' page of the ICO website, or through their breach report line (0303 123 1113), within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - A description, in clear and plain language, of the nature of the personal data breach
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned

As above, any decision on whether to contact individuals will be documented by the DPO.

- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies.
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts relating to the breach
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored in the GDPR folder on the Trusts Google Drive.

- The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Special category data (sensitive information) being disclosed via email (including safeguarding records)

- If special category data is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it
- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted

Other breaches which might be relevant are:

- Details of pupil premium interventions for named children being published on the Trust website
- Non-anonymised pupil exam results or staff pay information being shared with governors
- A Trust laptop containing non-encrypted sensitive personal data being stolen or hacked
- The Trust's cashless payment provider being hacked and parents' financial details stolen

Status of this Policy during Trust Transfer and Closure

This policy applies to Alumnis Multi Academy Trust and the academies for which it remains responsible.

As each academy transfers to an incoming academy trust, responsibility for that academy's ongoing data protection arrangements will transfer in accordance with the transfer arrangements and applicable legislation.

The incoming academy trust will be responsible for establishing and maintaining its own data protection policies, privacy information, procedures and contact arrangements.

Alumnis will retain responsibility for any personal data and processing activities that remain its responsibility following academy transfer, including records that are required to be retained as part of the Trust's closure arrangements.

This policy will remain in force for the period necessary to support Alumnis' remaining data protection responsibilities and the orderly transfer and closure of the Trust.

Appendix 2
Retention Schedule
